

Aeries Parent Portal

As part of our continuing efforts to provide information regarding your student's progress and status, Madera Unified parents/guardians will be able to view student information for their students from our school database using the [Aeries Parent Portal](#). Through our secure server you will be able to view your student's attendance and grade information. This is currently available to students in grades 7-12 only. To access student information in grades 1-6: use [StandardScore](#).

Use of this system is strictly limited to authorized account holders ONLY.

Use of this system indicates that you have read and fully understand the terms, conditions and responsibilities outlined in the [Madera Unified Security & Privacy Policy](#).

Please keep your password secure to protect student privacy.

To create a Parent Portal account you must have the following:

1. A personal email address.
2. Letter from the school site with the student's perm id number and verification code and return a signed [Madera Unified Security & Privacy Policy](#)
3. Your home phone number as it appears at the school site.

Creating New Accounts on the [Aeries Parent Portal](#)

Aeries Parent Portal FAQ:

HELP! I forgot my password.

If you forget your password, use the Log on to [Aeries Parent Portal](#). Use the link in the lower right hand corner to have your password sent to your email address.

I don't have a verification code.

To protect student privacy, we cannot give verification codes over the phone or through email. Please go into the school office to have a new Home Connection letter printed. The parent or student may pick up this letter personally. Please be ready to show proper identification when requesting a letter from the school.

I have more than one student in the district.

Log into the Home Connection account that has already been created. Click on the student's name in the upper right hand corner. Click on "Add Additional Student." Follow the process for adding a student to your account.

I cannot open PDF documents

PDF's require [Adobe Acrobat Reader](#). You will need [Adobe Reader](#) to open any files.
