 Directions

Make sure you have reviewed the directions in the *DIBELS Assessment Manual* and have them available. Say these specific directions to the student:

- ▶ **I would like you to read a story to me. Please do your best reading. If you do not know a word, I will read the word for you. Keep reading until I say "stop." Be ready to tell me all about the story when you finish.** (Place the passage in front of the student.)
- ▶ **Begin testing. Put your finger under the first word** (point to the first word of the passage). **Ready, begin.**

Timing	1 minute. Start your stopwatch after the student says the first word of the passage. Place a bracket () and say Stop after 1 minute.
Wait	If no response in 3 seconds, say the word and mark it as incorrect.
Discontinue	If no words are read correctly in the first line, say Stop , record a score of 0, and do not administer Retell. If fewer than 40 words are read correctly on any passage, use professional judgment whether to administer Retell for that passage.
Reminders	If the student stops (not a hesitation on a specific item), say Keep going . (Repeat as often as needed.) If the student loses his/her place, point. (Repeat as often as needed.)

A New Ball Game

0 On the first day of school, Roy's teacher asked him to write a letter 14

 43 in a small town in Africa for three years. Now his family had moved 57
 57 back to the United States. 62

 168 He handed the letter to his teacher the next morning. That afternoon 180

 206 introduce you to the soccer team. I think you'll enjoy it." 217
 217 Spencer smiled at Roy and led him outside to the field, where a 230
 230 group of kids were playing. "The teacher said you call this football in 243

Space Camp

0 It was the summer after third grade, and Kelsey was excited. Ever 12
 12 since she was little, Kelsey wanted to be an astronaut. This summer, 24
 24 she was old enough to go to space camp. For six days she would get to 40

 46 Kelsey would be staying at the space center with the other campers, 58
 58 so her father dropped her off the evening before camp began. She was 71
 71 so excited for the next day that she had a hard time sleeping. The next 86
 86 morning would begin her space adventure. 92
 92 The first thing the campers did that morning was put on spacesuits. 104
 104 Then they went into a machine that was like a pretend rocket launch. 117
 117 The machine was called a simulator. The campers spent the morning 128
 128 practicing rocket launches and landings in the simulator. It felt like they 140
 140 were on a real rocket. 145
 145 After lunch, it was time to divide into groups. Kelsey chose the space 158
 158 and aviation group because she wanted to be a pilot. She joined other 171
 171 campers who were interested in learning how to fly. The campers learned 183
 183 about the principles of flight, and they even spent time in a jet simulator. 197
 197 Kelsey spent the rest of the days at camp visiting the space museum 210
 210 and climbing the rock wall that resembled Mars' surface. All of the 222
 222 campers had a chance to build their own rockets. At the end of the six 237
 237 days, the campers launched their model rockets outdoors. Kelsey felt 247
 247 proud as her rocket soared high in the sky. As she watched her rocket, 261

Planting a Butterfly Garden

0 One of the most beautiful insects on earth is the butterfly. There are 13 thousands of different kinds of butterflies and they live in all parts of the 27 world. In some places, though, butterflies have trouble finding the plants 38 they need to survive. Planting a butterfly garden is a great way to help. 52 You can both protect and enjoy the butterflies in your area. 63 Many parks and public gardens have whole fields planted to attract 74 butterflies, but a butterfly garden does not have to be large. It can be 88 a small bed in your yard or even a window box. To plan this type of 104 garden, first find out what type of butterflies are native to where you live. 118 Then, find out what type of plants they like. Try looking at the library or 133 at your local garden center. 138 After researching local butterflies, pick a spot for your garden. Next, 149 decide how large it will be. It can also be helpful to map out a plan for 166 the garden. Butterflies like sunshine, so pick a sunny spot. The garden 178 should also have some protection from the wind. 186 If you are planting your garden in the ground or in a raised bed, you 201 will need to prepare the soil before putting in plants. Turn the soil to 215 loosen it up, making sure to break up any large clumps. You can add in 230 some gardening dirt while you do this. Now it is time to plant. Butterfly 244 gardens need host plants for butterflies to lay eggs on and for caterpillars 257 to eat. They also need plants that provide nectar to feed the butterflies. 270

Strawberry Festival Day

0 At the strawberry festival, Tessa stood between her stepmom and

 84 after the parade. That's when everyone at the festival gets to eat it!"

 148 delicious," Tessa said as she ate it.
 155 After they finished the cake, they walked around for a long time.
