LCAP Action Detailed Summary:

A major data analysis tool which will be used by both district and school leadership during the 2016-17 school year is the early warning system.

Early Warning System

The Madera Unified Early Warning System (EWS) will be fully functional by the beginning of the 2016-17 school year. The system will allow site leaders and elementary counselors a way to easily monitor students who are level 1 (green), 2 (yellow) or 3 (red) by utilizing graphical images and colors. The goal will be for the EWS to be used by school sites as they prepare for weekly coordination of services team (COST) meetings.
