One of the most productive ways to enter scores is to use “Scores by Class”. To get to score by class view, find the desired gradebook from dashboard list and select “Class” from row.

When in manage gradebook section you will also find a “Scores by Class” link in the menu at the top of the screen.

Scores By Class - Overview

Convenient menu at top allows you to quickly switch between gradebooks, score views, and gradebook options

Color legend explains color marks that will appear on your scoring table.

Enter scores directly in assignment column. Scores are automatically saved no "Submit" button to click!

The screenshot displays the 'Scores By Class' interface. At the top, a navigation menu includes '1 - Simple Gradebook - Year', 'Dashboard', 'Scores by Class', 'Assignments', 'Students', 'Reports', and 'Manage'. The main content area shows a table with columns for 'Name', 'Grade', '%', and 'Mark'. The table lists 17 students, all with a grade of 12 and a percentage of 0.0. A 'Mark' column is present but empty. A callout points to this column, stating that scores are entered directly and saved automatically. Below the table, a 'Class Averages' row shows 0.00, F, and 0. At the bottom, a color legend identifies various status markers: Attendance Info (blue), Missing (red), # Correct > Max (green), Max = 0 (grey), Inactive Student (yellow), and Grading Complete (blue). The footer includes '© 2014 Eagle Software v6.14.7.28'.
