INTRODUCTION TO CARD

PURPOSE

Mission

Our mission is to build a stronger culture around unified expectations of support, skill-building, and sportsmanship to inspire greater levels of personal, team, school, and community excellence.

Objective

Enhance the overall well-being of students through a community sports program that complements and supports school athletics. This community sports program is here to provide additional opportunities for students to engage in physical activity beyond their school athletic programs, and establish a fundamental athletic foundation that feeds into our Middle and High Schools.
