The Aeries online registration is in full swing for all new and returning Madera Unified School District (MUSD) students enrolling into the 2017/2018 school year. The Parents Resource Center assistants and temporary staff continue to work collaboratively with the school site administration and front office staff to support parents by making the online registration process efficient and maintaining excellent customer service.

This is MUSD’s second year administering the Aeries online registration process. School sites are working diligently to reach the district’s goal of 85% overall online registration.

May 22–26, Parent Resource Center Assistants will be supporting all middle schools with the online registration process.

May 22–26, 2017, 12:00-8:00pm

The Parent Resource Center staff provided support and outreach at the 2nd Annual Madera Special Needs Sports and Recreation Event, on Saturday May 13. The event drew over 150 spectators and 15 local community resources to help bring awareness to the many services available countywide to support children and families of special needs. A special thanks to Madera families of special needs, for their tireless work to empower Madera’s special needs population and mobilize the Madera community by highlighting the importance of inclusion.

Paola Cardenas is being recognized as the Parent of the Week for her dedication to the students of Lincoln Elementary School and her continuous support to the Lincoln Parent Resource Center. Paola is an active volunteer who facilitates Parenting Partners Program and the Family Meals Challenge Program at the Lincoln PRC. She is a supporter of the many programs the PRC provides and participates in the Family Literacy and Family Math Events. Paola is a noon aid at Lincoln and is currently assisting other parents with the online registration process. Thank you Paola for your dedication to our students and parents. Congratulations!
