Additional information on pest management products is available on the California Department of Pesticide Regulation’s website www.cdpr.ca.gov. Madera Unified School District has adopted an Integrated Pest Management program (IPM) that requires pest management action only when necessary and with the least-hazardous method. Additional information regarding the MUSD IPM program can be found on Madera Unified School website <http://www.madera.k12.ca.us/Page/8751>.

Applicators receive annual safety training, strictly follow the U.S. EPA label instructions and only apply pesticides when they are necessary. The District will make every effort to apply pesticides when students are NOT present, but reserves the right to spray within the Laws of the State anytime it deems safe, using the utmost care while students are present. To register with the District to receive notification of individual pest management product applications at a specific school site, contact school for notification request. Registrants will be notified of individual applications at least 72 hours in advance.
