

Mountain Vista High School

Home of the Panthers

July 24, 2023

Hello Mountain Vista Families,

Welcome to the Mountain Vista High family to all of our new students and parents! For our returning students and families, it's a pleasure to serve you once again and welcome you back to Panther land!

At Mountain Vista High, we believe in providing students with a safe and positive learning environment that fosters their academic and social-emotional growth, instilling a growth mindset that inspires them to have confidence in their ability to be successful in school and in life. We have created a safe and inclusive environment where students are known by name, need, and interest. I am beyond excited to continue to improve and grow from where we left off last year.

My staff and I are fully committed to ensuring that your students have a positive experience at Mountain Vista High and get them excited about learning and engaging in the classroom. Last year Mountain Vista High students had the highest percentage of students in the District who met their best growth target in Mathematics and we had the 3rd highest in the District in Reading as measured by the NWEA. Students at Mountain Vista High are engaging, learning, and growing on a daily basis with their academics.

While the Administration, teachers, and staff will do the heavy lifting at school and in the classrooms to ensure that your student is successful, we need your support and involvement in order to provide the best services possible that meet the needs of our students and families. I invite you to visit us and learn more about what we offer and the important role that you play in these efforts!

I look forward to meeting and working with you all!

Respectfully,

Alejandro Juarez
Principal, Mountain Vista High
